

We're looking for young
Parents who want an
Opportunity to study
and work in the community sector.

If you work with young parents, we want to talk to you
about what we can offer your clients.

We assist them in starting a Certificate III in Community Services
and mentor them back into study in a group environment.
We then train them as peer educators and they have the opportunity
to work talking about their experiences as a young parent in schools.
The Talking Realities program is a proven successful pathway
into further education, employment and social opportunities.
